Stacy Eldridge's cybersecurity journey began 20 years ago as a digital forensics examiner in the FBI. In the private sector, she led cybersecurity programs for Fortune 10 and critical infrastructure companies. Today, Stacy provides digital forensics, litigation support, and expert witness services while teaching at renowned institutions and coaching for IACIS. Her extensive credentials, including federal court testimony, multiple certifications, and a Master's degree, are a testament to her tenacity. Stacy's passion goes beyond just finding evidence - it's about understanding it and helping others comprehend its significance. With a keen eye for the truth, Stacy's unwavering dedication to her craft makes her a trusted authority in digital forensics and cybersecurity.
